Cut → place → score → decide. Keep the evidence visible.

0–3 min

Frame

- One workflow
- No tools discussion
- Low score is useful

3–7 min

Boundary

- Lay the string
- Mark trigger, gate, stop
- Add exception path

7–17 min

Evidence

- Place cards
- Name sources and owners
- Use blockers for assumptions

17–23 min

Score

- Place 0 / 1 / 2
- Blockers cap scores
- Critical zero blocks pilot

23–35 min

Skeptic + decide

- Remove unsupported tokens
- Choose one label
- Write one action + owner
